STATE OF NEW JERSEY

ANNUAL REPORT

OF THE

Commissioner of Insurance

FOR THE YEAR ENDING
December 31, 1982

Part I
FIRE AND CASUALTY INSURANCE

Part II
LIFE AND MISCELLANEOUS INSURANCE

DEPARTMENT OF INSURANCE,

TRENTON, MARCH 1, 1983

To the Honorable the Senate and General Assembly:

As the statute requires, I herewith submit the report of the Department of Insurance for the year ending December 31, 1982, setting forth in two parts the financial condition and business transacted by all insurance companies and associations that are authorized to do business in this State on the above date.

Part I of the report contains a narrative history of the Department's activities in 1982 and the data relative to fire and casualty insurance companies, while Part II embodies that of life and miscellaneous companies and associations.

Respectfully,

Joseph F. Murphy

JOSEPH F. MURPHY,
Commissioner of Insurance.

ANNUAL REPORT - 1982

Joseph F. Murphy of Convent Station, N.J., a lawyer, retired insurance executive and former deputy superintendent of insurance of the State of New York, was appointed commissioner of insurance by Governor Thomas H. Kean and, after confirmation by the State Senate, took office on February 10, 1982.

AUTO INSURANCE

The crisis in private passenger auto insurance remained the most urgent problem facing the new administration.

Premium rates continued to soar, reflecting the overly generous No-Fault system and its absurdly low No-Fault threshold. A survey by an insurance reporting service established that the average premium for auto insurance in New Jersey was the highest in the nation and almost 50 per cent greater than the national average.

In view of the continuing growth in the loss experience of the auto insurers, the commissioner approved a 15 per cent increase for the Insurance Services Office, the major rating bureau in the state, and the New Jersey Automobile Insurance Plan (Assigned Risk), and these increases for individual filers: Prudential Property and Casualty Insurance Company, 18.5 per cent; Aetna Casualty and Surety Company, 25 per cent; Travelers Group, 27.1 per cent; and Colonial Penn Insurance Company, 32.1 per cent. The Department of the Public Advocate, which serves as rate counsel in the public interest, offered no objection to these increases.

Earlier, the Allstate Insurance Company, which joined the ISO in 1980 but was not permitted to use the ISO rates at the time, had been allowed to go to the full ISO rate. The move gave the company a 13.1 per cent rate increase.

The commissioner said that permission was given because New Jersey law allows any company to become a member of a rating bureau and Allstate, in the opinion of the Attorney General, had met all the requirements of the law.

"The major consideration is whether ISO's rates would be excessive for Allstate," the commissioner said. "A review of Allstate's experience has determined that the ISO rates would not be excessive for Allstate.

"In fact, our review of Allstate's operating results for the last two years shows an overall deteriorating experience. The profitability report by the

National Association of Insurance Commissioners for 1980 lists Allstate's loss at a minus 7.9 percent, or $23 million, in New Jersey. While the 1981 NAIC results have not as yet been published, Allstate's indicated loss is a minus 16 per cent, or $49 million. These operating losses include allowances for investment income."

However, when the ISO 15 per cent increase was approved in July, Allstate was again barred from using the full rate until the Department of Insurance had had an opportunity to evaluate its effect. Subsequently, Allstate was permitted to take only an 11 per cent increase, which reflected the fact that as a direct writer it has a lower expense factor than other ISO companies, most of which are agency companies. Again the Public Advocate did not object.

At mid-year the Kean Administration offered legislation to reform New Jersey's No-Fault law. Assembly Bill A-1747 would increase the No-Fault threshold to $1,500, remove the soft-tissue limitation in its definition of injuries, and authorize a schedule of medical benefit payments similar to that in use for Workers Compensation payments in some other states. The legislation had not been acted upon by year's end.

However, a major reform of the auto insurance market unrelated to No-Fault was unanimously passed by the Legislature. It will become fully effective on January 1, 1984.

The reform measure, A-1696, is actually two bills in one, the first being the "New Jersey Automobile Insurance Reform Act of 1982" and the second the "New Jersey Automobile Full Insurance Availability Act of 1982."

The Reform Act provides a number of changes, including, among others, freedom of insurers to make certain annual rate adjustments without prior approval of the commissioner, uniform surcharge systems for accident involvement and motor vehicle violations, a capping process that will narrow the now substantial differences between the highest-rated and lowest-rated drivers, a flat charge for certain company expenses, and discounts for senior citizens.

The Full Insurance Availability Act creates a Joint Underwriting Association to replace the Assigned Risk Plan and provides for the annual imposition of a per car charge in both the voluntary and residual market to make up any deficit in the previous year's operation.

The most significant provision of the Reform Act would modify New Jersey's prior approval system to permit an annual, virtually automatic rate increase for the auto insurance companies. The bill provides that on or before February 1 of each year the commissioner must file the maximum rate increase the companies will be permitted to use without prior approval. This automatic increase will be the average of the increases approved for the Insurance Services Office in the three prior years. The increase for each company will take effect on the date it makes an informational filing with the commissioner. Prior approval will be needed for any increase sought beyond the automatic increase.

The bill would introduce a capping process by territory and classification which would reduce the difference that now exists between the lowest-rated and the highest-rated drivers. It would also cap the rates charged senior citizens. The territorial cap provides that the base rate in a territory may not exceed 1.35 times a company's statewide base rate for each coverage. The classification cap provides that no rate within each territory shall exceed 2.5 times a company's territorial base rates for each coverage. The rates for senior citizens (65 and older) who are principal operators are not to exceed 1.25 times the statewide average rate for principal operators 65 and older.

Miscellaneous taxes, licenses, fees and at the least 90 per cent of a company's general expenses and acquisition costs, excluding commissions, would be applied as a flat, uniform charge per car on a statewide basis. The companies would be required to offer both uninsured and underinsured motorists coverage up to the limits of each insured's policy but not to exceed $250,000/500,000 coverage for bodily injury and $100,000 for property damage.

The Joint Underwriting Association to be created by the act would comprise all auto insurers doing business in New Jersey. It would replace the New Jersey Automobile Insurance Plan (Assigned Risk). Its purpose would be to provide auto insurance to those unable to obtain it on the voluntary market.

The bill would empower the JUA to continue the current custom of charging ISO rates for the liability coverage to those drivers without surchargeable motor vehicle points and accidents, but it would also extend the ISO rates to physical damage coverage.

The market equalization charge is intended to make the companies whole, assuming that losses in the residual market continue unabated. The charge would be a flat charge per car based on the JUA's losses and would be applied to all cars in both the voluntary and JUA markets. The charge would be computed by the JUA based on the previous year's experience and submitted to the commissioner for his approval or disapproval within 60 days. In its first year of operation, the market equalization charge would be based on the experience of the AIP in the preceding year.

PUBLIC HEARING FOR NJAIP

An application by the New Jersey Automobile Insurance Plan, the State's assigned risk mechanism, for the right to use its own rate system and for a substantial rate increase was referred to the State's Office of Administrative Law for a public hearing.

The administrative law judge, after an extended public hearing, recommended in a decision released in December that the NJAIP not be allowed a separate rating system but, to offset the losses in the Assigned Risk Plan, a per car surcharge of $44 for those with only the mandated liability coverages and another $14, for a total of $58, for those with comprehensive and collision coverages be added to all cars, both voluntary and assigned.

The NJAIP, through which about 40 per cent of New Jersey motorists obtain their insurance, asked for an average increase of 60.9 per cent in its premiums for the mandated Personal Injury Protection and liability coverages and 82.7 per cent for the physical damage (collision and comprehensive) coverages.

Traditionally, rate increase applications by NJAIP have not been subjected to public hearings, which are not required by law. However, the NJAIP and State Farm Mutual Automobile Insurance Company had filed suit in 1981 seeking a judicial ruling ordering a public hearing and final determination. The commissioner's agreement to hold a public hearing resulted in a withdrawal of the suit.

State Farm claimed an underwriting loss of $44,933,754 on assigned risk business in 1981 and the first two months of 1982 against an underwriting profit of $11,218,941 for the same period on its voluntary business. At the end of 1981, State Farm had 257,858 voluntary policyholders and 141,905 assigned risks.

All the auto insurance companies doing business in New Jersey are required to be members of the NJAIP. Each company must accept assignments in proportion to the amount of voluntary business it does.

In recent years, the companies have not been writing very much new business voluntarily with the result that New Jersey's Assigned Risk Plan, with about 1.4 million cars, is now by far the largest of any state's.

The NJAIP has two rating categories, called supplements, which distinguish between those drivers with violation-free and accident-free records and those with a recent history of motor vehicle convictions and chargeable accidents. Drivers with good records are charged the rates approved for the Insurance Services Office, a rating bureau, for the mandated liability and Personal Injury Protection coverages, while those with poor records are surcharged.

MOTOR CLUB MEMBERSHIPS RULE

Beginning August 15, insurance agents and brokers who sell motor club memberships along with auto insurance were made subject to a Department of Insurance "full disclosure" requirement.

The department regulation is intended to prevent misrepresentation in the sale of motor club memberships in conjunction with the sale of auto insurance. Motor Club contracts offer travel advice, emergency road service, bail bonds, and other services. Motor Clubs as such are not regulated by the Department of Insurance or any state agency.

However, the Department of Insurance believes it can eliminate abuses that have been uncovered by placing new obligations on the persons it licenses—agents and brokers. The new regulation requires agents and brokers selling memberships to obtain a dated and written agreement from a prospective insured, which must state:

> That the motor club service contract is not an insurance contract;
>
> That the motor club service contract is optional and is not required to be purchased by the insured or prospective insured as a condition of obtaining automobile insurance coverages;
>
> That the motor club membership fee is not related to or included in the automobile insurance premium charge, and cannot lawfully be included in a premium finance agreement entered into by the insured or prospective insured;

In addition, the written agreement must also contain:

> A clear statement separately showing the amount of the motor club fee and the automobile insurance premium charge;
>
> Identification of the person(s) and/or vehicles covered by the motor club service contract and the term of the contract;
>
> The name and location of the motor club and the benefits and/or services provided by the motor club service contract.

The regulation was adopted because the Insurance Department had found confusion and misunderstanding in the sale of some motor club memberships, which lead some insureds to believe that motor club membership is mandatory.

The commissioner emphasized that the abuses uncovered are not characteristic of the motor club industry in New Jersey as a whole but have been principally found to exist among brokers specializing in the sale of auto insurance through the New Jersey Automobile Insurance Plan (Assigned Risk).

BLUE CROSS AND BLUE SHIELD

An average 19.5 per cent increase in the premium rates for most direct pay individual and small group subscribers of the Hospital Service Plan of New Jersey (Blue Cross) was approved.

The increase was effective July 1 and applied to subscribers in all individual and small group (no more than 50 members) programs except the Direct Pay Complimentary Program, which supplements Medicare coverage. For Direct Pay Complimentary subscribers, Blue Cross received a 12.6 per cent increase effective January 1, 1983.

The approved 19.5 per cent increase will yield an additional $58 million in annual premium.

Blue Cross based its application for a rate increase on continuing losses in its community-rated (individual and small group) programs, which, it reported, amounted to $55.3 million in 1981 and created a negative reserve position of $4.2 million at year's end. It had asked for a 27.8 per cent increase.

The commissioner, who held a public hearing on the 27.8 per cent rate request, said in his report that Blue Cross is "significantly insolvent" but that its requested increase could be reduced to 19.5 per cent because of a slowing of the inflation rate and a change in the method of reaching the statutorily-required 2½ per cent surplus by December 31, 1983.

"As to the level of hospital costs," the commissioner said, "It appears from the testimony of both Blue Cross and the Public Advocate (which supplied rate counsel at the public hearing) that the rate of inflation has tempered appreciably since Blue Cross prepared its rate application."

He said that Blue Cross acknowledged that labor costs alone may be two per cent lower in 1982 than originally projected. Labor costs average about 60 per cent of hospital expenditures.

In addition, early in January under the previous administration, increases had been approved for two categories of Blue Shield community-rated subscribers, 29.6 per cent for small group Medicare Complementary, and 19.4 per cent for small group Usual, Customary and Reasonable (UCR) charges. Also, the Blue Shield portion of the Blue Cross-Blue Shield direct payment complementary rates were increased 21.3 per cent, effective January 1, 1982, as part of a Blue Cross rate adjustment approved the previous November to permit the two Plans to offer a special package to subscribers over the age of 65.

The rates for Blue Shield individual and small group subscribers were increased 24.2 per cent, effective January 1, 1983. The commissioner said that Blue Shield was insolvent and that rate relief was essential if the Plan's financial health was to be restored as mandated by statute.

WORKERS COMPENSATION

The dreary litany of rate increase announcements was briefly interrupted in October by the Commissioner's approval of a new rating plan for Workers' Compensation Insurance, effective January 1, 1983, under which the rates will decrease an average 14.8 per cent. At the same time, benefits, which are based on the average weekly wage, will go up.

The decrease was made possible by the favorable loss experience of the companies in 1981, on which the 1983 rates are based, and reflects various social, economic and administrative factors, including the impact of the Workers' Compensation Act of 1980 which introduced cost-saving reforms.

As a result of the 14.8 per cent decrease, the net premium to be paid next year by New Jersey employers will be approximately $67 million less than it would have been without the rate revisions.

Benefits will increase in 1983 because they are a percentage of the average weekly wage, which the Department of Labor recently determined to have been $314 in 1980. The weekly minimum benefit for death, permanent total or temporary total disability and permanent partial disability, which is fixed at 20 per cent of the average weekly wage, will increase to $63, and the maximum benefit, which is fixed at 75 per cent of the average wage, will increase to $236. The current range is $58 to $217.

COMMERCIAL DEREGULATION

The Commercial Insurance Deregulation Act took effect in November. It established a separate rating law for commercial insurance that affords greater flexibility in the underwriting and rating of commercial insurance without sacrificing regulatory oversight altogether. The commissioner retains the right to promulgate rules and regulations to implement its provisions.

Since most commercial insureds know what they need and have the sophistication and knowledge to negotiate with brokers, agents or insurers, it is believed that they do not need the Department of Insurance to look over their shoulders to make sure they are getting a fair deal.

Adoption of the Commercial Insurance Deregulation Act should lead the way in the development of a deregulated marketplace in New Jersey.

OTHER MATTERS

Several mergers and acquisitions of New Jersey-based insurance companies were approved. The largest transaction involved the $1.6 billion acquisition of Crum & Forster, an insurance holding company, by the Xerox company. The commissioner's approval was needed because one of Crum & Forster's wholly-insured insurance companies, the North River Insurance Company of Morristown, is a New Jersey-domiciled company.

Other acquisitions approved were the purchase of the Garden State Life Insurance Company by the GEICO Corp., of Washington, D.C., and the purchase of control of City Insurance Company by Sharon Steel Corporation, its wholly-owned subsidiary, Summit Systems, Inc., and its chairman, Victor Posner. In the latter transaction, change in control was to be accomplished by the applicants' increasing their holdings in the voting securities of City Investing Company, whose subsidiary, Home Insurance Company of New Hampshire, owns City Insurance Company. The purchase of additional shares was to be made for investment purposes only, up to a total of 25 per cent. Merger of the Great American Life Insurance Company, a New Jersey company, and the FN Life Insurance Company, an Ohio corporation, both subsidiaries of the American Financial Corp., and the merger of Covenant Life Insurance Company, a New Jersey company, and the NEN Life Insurance Company, both subsidiaries of the New England Life Insurance Company, were approved.

Responding to the introduction of Universal/Flexible Factor type life insurance, the Department held a two-day informational public hearing to aid in developing guidelines to assist companies in filing policy forms for review. The hearing drew considerable interest from the industry and from regulators of neighboring states. Subsequently, a series of guidelines was promulgated, which the commissioner said would be subject to change as the need arose.

Comparisons For All Insurance Companies

COMPARISONS

The following is a comparison of totals for all insurance companies as compared with the previous year. The tables show the figures in the aggregate and by groups:

FIRE AND CASUALTY COMPANIES	**1981**	**1982**
Number of companies:
